

Hurricane season is a time for everyone to be prepared to adjust as needed to the immediacy of an approaching storm. The Christ Church parish office and all scheduled activities will be adjusted when the Indian River County Emergency Office issues these directives for our area:

### **Tropical Storm Watch or Warning**

The Church Office will remain open, and staff will likely be doing precautionary work to secure the building. Be cautious when travelling during this time. If you are scheduled for a meeting or an event at Christ Church, please call ahead to confirm the event has not been canceled or rescheduled.

***Note:** When Tropical Storm Force Wind speeds are sustained at 39+ mph, Indian River County closes all bridges. All activities and services at Christ Church will be automatically canceled. Do not travel during this time.*

### **Hurricane Watch**

The Church Office will remain open while we secure our facilities. Be cautious if you must travel during this time. If you are scheduled for a meeting or an event at Christ Church, please call ahead to confirm the event has not been canceled or rescheduled.

### **Hurricane Warning**

The Church Office will be closed. All church activities and Worship Services will be automatically canceled. The facility will remain closed until electrical power is restored and the Rector and Administrator deem the property safe for use. This will be communicated to our members through The Communicator News Flash (e-mail), phone outgoing message, and social media posts.
